OVERVIEW

About Course5 Intelligence – www.course5i.com

Course5 Intelligence enables organizations to make the most effective strategic and tactical moves relating to their customers, markets, and competition at the rapid pace that the digital business world demands. We do this by driving digital transformation through analytics, insights, and Artificial Intelligence (AI). Our clients experience higher top line and bottom line results with improved customer satisfaction and business agility. As we solve today's problems for our clients, we also enable them to reshape their businesses to meet and actualize the future.

Rapid advances in Artificial Intelligence and Machine Learning technology have enabled us to create disruptive technologies and accelerators under our Course5 Intelligence suites that combine analytics, digital, and research solutions to provide significant and long-term value to our clients.

Course5 Intelligence creates value for businesses through synthesis of a variety of data and information sources in a 360-degree approach, solution toolkits and frameworks for specific business questions, deep industry and domain expertise, Digital Suite and Research AI to accelerate solutions, application of state-of-the-art AI and next-generation technologies for cognitive automation and enhanced knowledge discovery, and a focus on actionable insight.

POSITION SUMMARY

The assistant manager will support the coaching and professional development of analysts/sr. analysts. He/she will also be key in contributing to the story-lining of the project along with ensuring that the deliverables are in-line with the business needs of the clients enabling the manager to contribute to effectively deriving implications.

ROLES AND RESPONSIBILITIES

- To be able to align the deliverable to the KITs and KIQs of the project
- Leverage the best available sources & tools and bring in innovative approaches for data collection and analysis
- Develop meaningful insights and recommendations from disparate data sets
- Develop final outputs (slides or documents) with the best suited data synthesis and convincing visualization to convey key messages
- For conference coverage – Assist in: pre-congress planning (via abstract mining), in-congress primary reporting and developing post-congress reports
- Managing efficient communications between the analysts/sr.analysts and managers/sr.managers

- Provide effective support to managers and above during client presentations
- Potentially grow into managing multiple projects and teams

REQUIRED KNOWLEDGE AND SKILLS

- 4-6 years of pharmaceutical competitive intelligence experience
- Strong analytical skills to grasp problems (complexity, context etc.), and ability to assist in the scoping the solution and effort estimation
- Ability to interface with cross-functional teams on a sound clinical and commercial base
- Superior communication ability to ensure that the scope of projects/initiatives and expectations are commonly understood
- Past experience of contributing to projects in but not limited to competitor monitoring, conference coverage, market sizing and forecasting, social media analytics, primary market research etc.

This position may require up to 20% travel.
