POSITION SUMMARY:

This position is for an Analyst Role for Course5's Digital Suite team. The candidate will be part of Digital Suite's product and services team responsible for data analysis, data management and automation of reports. We are looking for dynamic, driven and smart individuals who are not afraid to experiment and fail, are able to work in a fast-paced environment, and deliver robust, scalable products within committed timelines.

SPECIFIC RESPONSIBILITIES

- Create automation to perform data engineering tasks through Excel Macros.
- Interact with clients over emails and calls for requirement understanding or issue redressal.
- Should be flexible to work in a very dynamic environment with multiple teams.
- Enthusiastic to learn new ETL/BI tools.
- Strong Excel and data audit skills.
- Good at troubleshooting and process designing.
- Ability to understand the problem statement and articulate the solution.
- Strong technical skills to automate business reporting tasks.
- Should be able to work on multiple technologies in a multi-client environment.
- Good multitasking ability with sense of prioritization.
- Should be able to ideate and suggest new solutions for business growth.

REQUIRED KNOWLEDGE, SKILLS AND ABILITIES

- Bachelor's degree in Engineering or equivalent; Master's not mandatory.
- 1+ years of experience of execution and automation.
- Experience with business report creation (Excel) and independent ownership of deliveries.
- Experience with Excel Macros.
- Should have good written and oral communication skills.
- Should possess analytical thought process.
- VBA skill is an added advantage.

Note - Candidate should be willing to work Saturday to Wednesday and can take their weekly off on Thursday and Friday.
