JOB SUMMARY

We are looking for a resource to join our Market Intelligence team in Bengaluru. The individual will be responsible for constantly leveraging his/her technical skills and creativity and should be able to manage a team of 4-8 designers/data visualization experts.

SPECIFIC RESPONSIBILITIES

- Manage a team of several designers, evaluating individual design deliverables and overall team performance.
- Deliver critical feedback where needed and encourage team members throughout the delivery.
- Comfortable in executing design requirements independently.
- Work and manage various design requirements – From PowerPoint charting to highly visual story decks, infographics to videos and user experience design for data products.
- Experience in UI/UX like sketching wireframes and developing interactive prototypes, basic front end development would be a plus
- Collaborate with internal & external stakeholders and ensuring high CSAT
- Carrying design and web projects from concept to completion while adhering to the brand standards
- Open to learn new tools and techniques based on the requirements.

REQUIRED KNOWLEDGE, SKILLS AND ABILITIES

- Design tools (Adobe Creative Suite)
- Microsoft Office Suite with proficiency on MS PowerPoint
- Web technology (HTML, CSS, UI design) a plus
- Excellent Communication skills
- Logical thinking and problem-solving skills are a must.
- Ability to independently handle projects and get work done.
