JOB SUMMARY

We are looking for programmers with a keen eye for design for the position of Front End Developer. Front end Developers are responsible for ensuring the alignment of web design and user experience requirements, optimizing web pages for maximum efficiency and maintaining brand consistency across all web pages, among other duties.

SPECIFIC RESPONSIBILITIES

Front End Developers are required to work in teams alongside Back end Developers, Graphic Designers and User Experience Designers to ensure all elements of web creation are consistent.

FRONT END DEVELOPER RESPONSIBILITIES:

- Determining the structure and design of web pages.
- Ensuring user experience determines design choices.
- Developing features to enhance the user experience.
- Striking a balance between functional and aesthetic design.
- Ensuring web design is optimized for smartphones.
- Building reusable code for future use.
- Optimizing web pages for maximum speed and scalability.
- Utilizing a variety of markup languages to write web pages.
- Maintaining brand consistency throughout design.

GOOD TO HAVE DECRYPTER SKILLSETS:

- Knowledge on advanced Python programming, and how to incorporate the Python scripting within Decipher platform.
- Experience on working with the Decipher Cloud server and well versed with all the commands present within the server.
- Knowledge of basic structure of a Dynamic Question Style and its functionalities, as well as how to create a new Dynamic Questions on our own.

REQUIRED KNOWLEDGE, SKILLS AND ABILITIES

- Degree in Computer Science or related field.
- Understanding of key design principles.
- Proficiency with HTML5, DHTML, Bootstrap, NodeJS, CSS, JavaScript, XML and jQuery.
- Proficiency with ASP.Net, Web Services and SQL Server.
- Basic knowledge of PHP
- Understanding of server-side CSS.
- Experience with responsive and adaptive design.
- Understanding of SEO principles.
- Good problem solving skills.
- Excellent verbal communication skills.
- Good interpersonal skills.
