Job Summary:

The Senior Research Analyst will be key in ensuring smooth delivery and execution of project and ensure they are in-line with the business needs of the clients. He/she will support the coaching and professional development of Analysts/Sr. Analysts, along with the manager. In the long run, the candidate is expected to build a strong knowledge base and establish themselves as the go-to person for the defined business areas.

Job Responsibilities:

- Delivery ownership of assigned project / account
- Independently develop client ready outputs (slides or documents) with the best suited data synthesis and convincing visualization to convey key messages
- Develop meaningful insights and recommendations from data gathered from variety of sources
- Quality check reports and summaries for both accuracy and relevancy
- Provide effective support to managers and above during client presentations, proposals/ RFP
- Potentially grow into managing multiple projects, and train junior members while on job

Requirements & Qualifications:

- 3-4 years of strong primary research experience (preferably agency side)
- Proficient in Microsoft Office suite (Excel, PowerPoint and Word)
- Ability to interface with cross-functional teams
- Ability to think critically and work independently
- Good organizational, time management and priority setting skills, and the flexibility to multi-task in a fast-paced environment
- Excellent written and verbal English skills

Good to have (NOT MANDATORY): Exposure in IT/Telecom sector.

Any experience or knowledge of data collection/analysis tools, such as SPSS, WinCross, Qualtrics etc.
